Ending a TESTING SESSION: MAKE NOTE OF WHO HAS COMPLETED THE TEST!!

1. Click on **END TESTING SESSION** (next to the CONFIRM NOW section)
2. Choose to **SAVE and EXIT** (if all students have completed the test)
3. Choose **DELETE SESSION** if all students are done

Tips and Tricks:

- Tests are automatically saved. If the app closes or shuts down, students will pick up at the same place but possibly with a new question
- When a student gets kicked out, change their STATUS to SUSPEND TEST. Have the student FULLY CLOSE the app and then in the MANAGE TEST SESSION change their status to TEST AGAIN
- iPADS must be **FULLY CHARGED**
- If the app doesn't ever go to the sign in screen, delete it and reinstall from Self Service
- **Disengaged Alerts** are shown at the top right of the Manage Test section. If this status continues, the test will automatically be terminated.

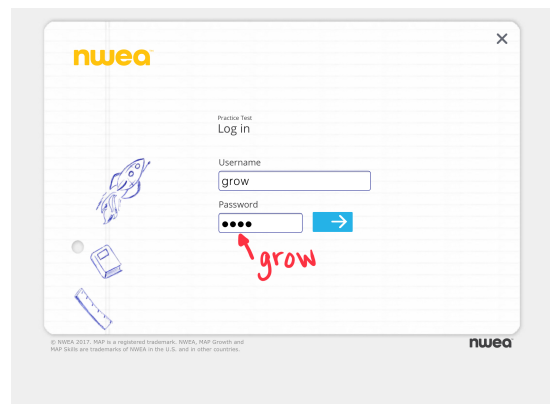

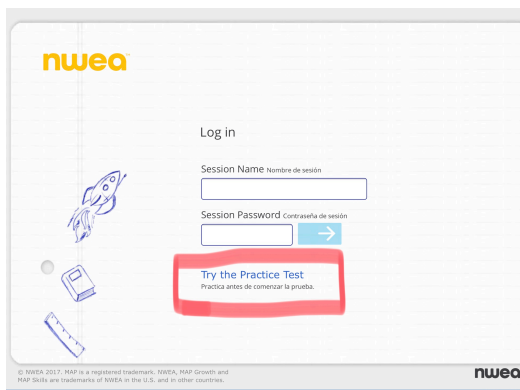

NEW FEATURE! You can go over a sample test on air play or doc cam. This helps prevent confusion about how to perform functions on the test like selecting and filling in the blanks.

Open the NWEA app. Click on “Try the Practice Test”

- choose grade level
- subject
- english
- practice items for the test you are giving (i.e. “Practice Items:Reading K-2)
- Walk through the examples with your students. It will walk through all of the different ways to select an answer. Be sure and show students in K-2 that they can use the speaker function to have items read to them. There are 10 total questions to walk through.

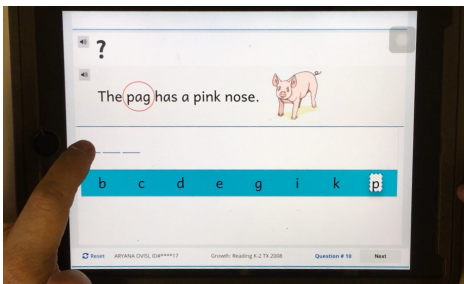

This is a change to the “click and drag” or “click and auto-populate” screens in map for ALL GRADE LEVELS. It is a little tricky, and not something that our students have ever seen before. It is one of the practice items, so you can show them, but here is a quick tutorial for you!

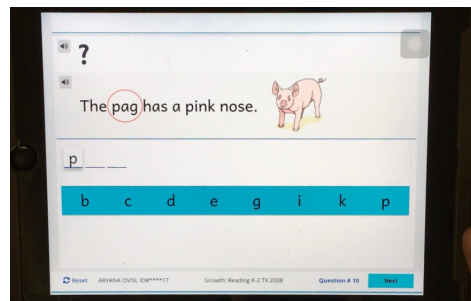

Touch the object

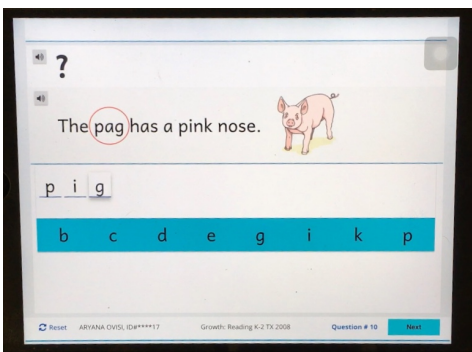

The object will highlight with a dotted box

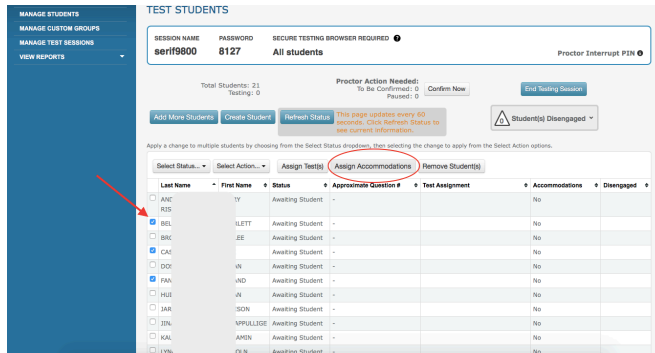

Touch where you want the object to go.

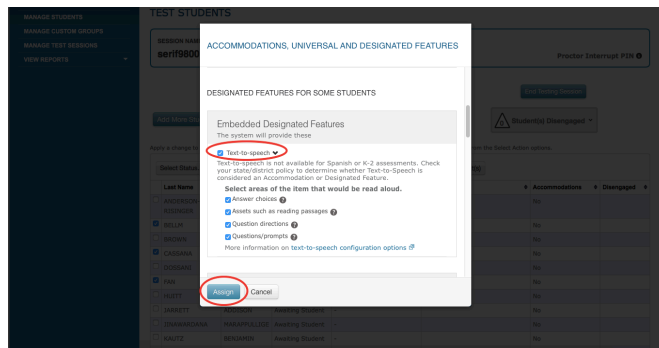

The object will populate

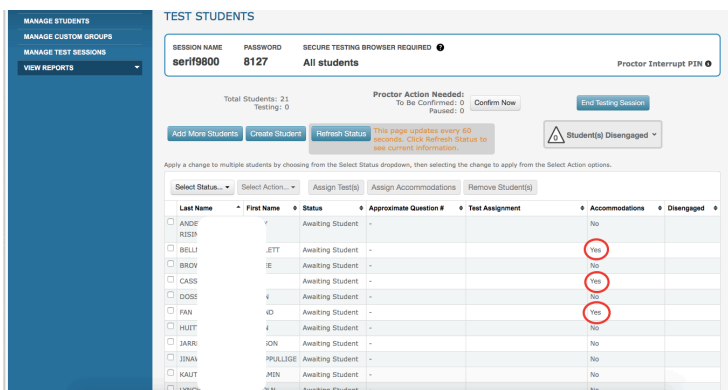

Assigning accommodations for Oral Admin for students with a 504 or IEP in **GRADES 3-5. Embedded accommodations are already available on the K-2 test.**

Before students log in, select the students with accommodations and then click “Assign Accommodations”

Scroll down to EMBEDDED DESIGN FEATURES and choose “Text to Speech”. Make sure all the accommodations are selected. Then click “Assign”.

Students will now show as a “YES” in the accommodations column and WILL NEED HEADPHONES TO TAKE THE TEST!!!!
